## KEY ANSWERS

1- A. School

2- A. Tropic of Cancer

3- Man is a social being. He desires to live with others around him. Society is necessary for man's existence. That is the reason human society has been called a web of social relations and man is a social being.

4- The Earth is the home for all forms of life like plants, animals and human beings because of its suitable distance from the Sun, range of temperature, life supporting gases, atmosphere, water cycle, etc. It is the only planet that supports life that is why it is called 'Living Planet'.

5- The Northern Hemisphere has 60% of land and 40% of water. Therefore, it is called the 'Land Hemisphere.

The Southern Hemisphere has 81% of water and 19% of land in the Southern Hemisphere. So, it is called the 'Water Hemisphere'.

6- native literary work: Kautilya's 'Arthashastra', King Hala's "Gathaspathasathi", foreign literary work: Megasthenes (Indica), Fa-hien (Gho-ko-ki),

---- OR

----- In the latter half of nineteenth century, the British resorted to divide and rule Indians on the basis of caste and religion. Arya-Dravida division was created for the sake of it. Christian Missionaries first proposed and propagated that the word Dravida was indicative of a tribe.

7- The study of Political Science helps us in the following ways.

It helps to understand the birth and growth of a state.

It provides information about the origin and development of ideas such as monarchy, freedom, justice, laws, equality, good government, wars and peace etc.

It provides information about the structure and functions of the state and governments.

Political Science provides knowledge the Constitutions and laws of the state.

Political Science helps to understand about the organs of the government i.e., Legislature, Executive and Judiciary and their functions.

The knowledge of political science helps to raise good leadership and good citizenry.

Political Science helps to understand the important Political institutions like political parties, federation and local bodies.

OR

----- Sociology deals with human society. Among all living beings on earth, it is only human beings who have complete awareness about the existence. They contemplate

over their goal, and purpose in life. It is due to this that innumerable questions arise in man's mind. Why man is called a social being? Is man God's creation? Why are there differences between groups? Why does society undergo constant change? In order to find answers to such questions, and to study human society in a scientific manner, sociology was originated.

8- a) It helps to understand and solve problems of poverty, unemployment, economic inequality, etc.,

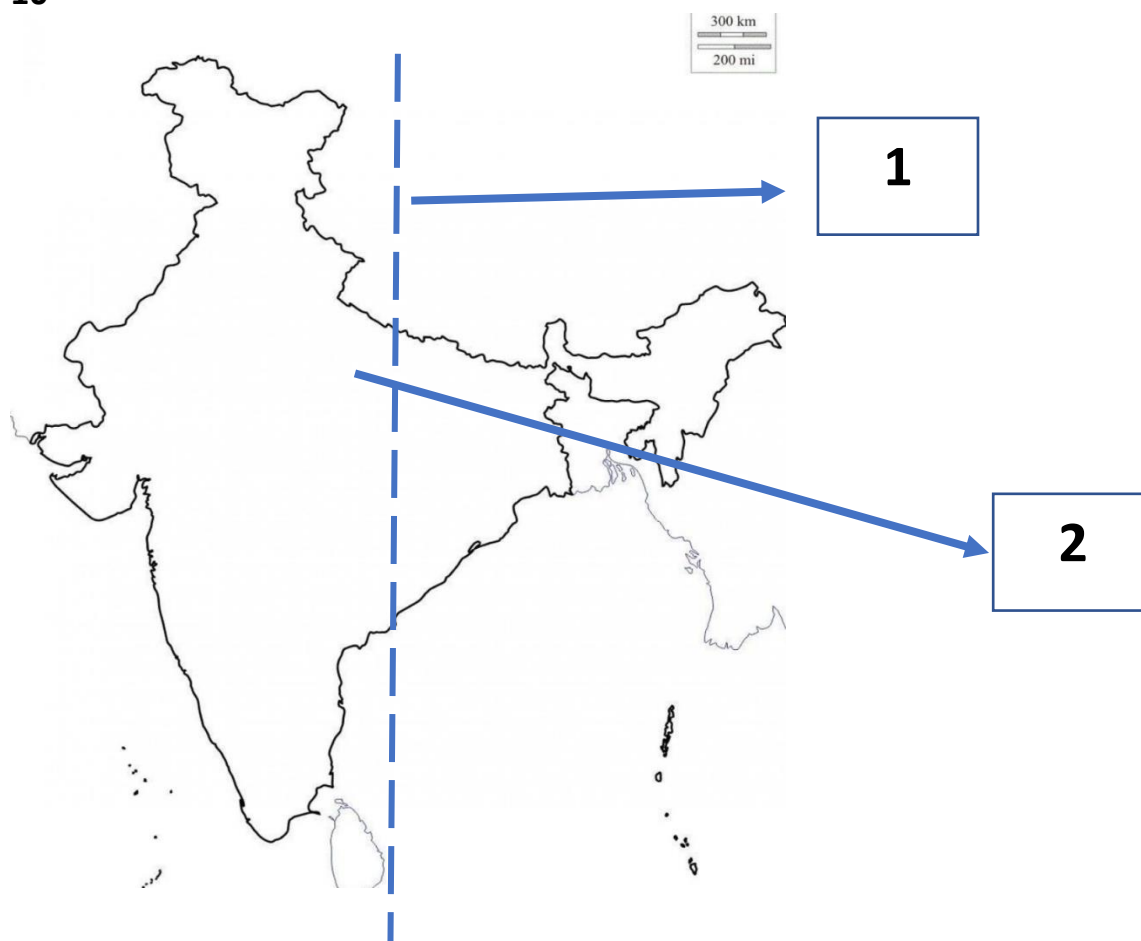

b) It helps to solve the problem of what to produce, how to produce, whom to produce, etc.,

c) Economics identifies the reason for the rise and fall of prices and the results of such fluctuations.

d) Economics suggests ways to make use of limited resources with care and efficiency.

9- 12,000 years ago, the earth's temperature began to gradually increase due to major change in the world's environment. This led to the development of grasslands in many places. Birds and animals began to multiply in unprecedented numbers. Man began to observe their nature, food habits and the way they multiplied. This was the way the practices of animal husbandry and dairy farming began.

10-

IDENTIFY THE PICTURES AND WRITE DOWN THEIR FEATURES
